Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 1-17 are presented for examination.

A request for continued examination under 37 C.F.R. 1.114, including the fee set forth in 37 C.F.R. 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 C.F.R. 1.114, and the fee set forth in 37 C.F.R. 1.17(e) has been timely paid, the finality of the previous Office Action has been withdrawn pursuant to 37 C.F.R. 1.114. Applicant's submission filed February 28, 2008 has been received and entered into the present application. Accordingly, claims 1 and 2 are amended and claims 10-17 are withdrawn. Claims 1-9 are pending and are herein examined on the merits.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 2-9 recite phraseology "from about" which is indefinite because "from" is indicative that the lower limit of the range cannot be less than 0.0001% but "about"

permits leeway so that the lower limit of the range can be less than 0.0001%. Which term is controlling as to a limit recited in the claim? See “of about” instead.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Oliveira et al. (US Pub. No. 2003/0157239 A1).

Oliveira et al. teach a composition that has high protein, low soluble-sugar, oil containing soybean meal suitable for use as a partial or full replacement of fish meal and other protein and energy sources in the manufacture of fish and land animal feeds and pet foods. This syrup is also suitable to be used as a taste enhancer for animal feed (typically added to the soybean meal) (see abstract). The soybean meal of this invention also is useful as a protein and energy source in other manufactured animal feeds, such as shrimp, piglets, calves and pet animals (for example, cats and dogs) (see page 4, paragraph 0040). Oliveira et al. further teach using 25.7 mg of astaxanthin per 1883.0257 g composition, which corresponds to 0.00136% weight of the composition (see page 6, table 2). The reference anticipates the claims.

Response to Arguments

Applicant argues that Oliveira et al. discloses a soybean meal suitable for fish meal and land animal meals. Applicant has further amended claim 1 to indicate a composition comprising of astaxanthin wherein the composition is adapted for use by a companion animal and wherein the companion animal is selected from the group consisting of dogs and cats. Examiner does not agree with applicant's arguments Oliveira discloses of an animal feed such as soybean meal that comprises of astaxanthin that is particularly used for pet animals such as cats and dogs. The prior art clearly discloses the instant claims a composition comprising astaxanthin wherein the composition is used by cats and dogs. The instant claims being directed to a composition which is disclosed in the reference and that nothing in the claims nor arguments limits the actual claimed compositions to exclude what is disclosed in the reference. Applicant's amendments and remarks have been carefully considered in their entirety, but fail to be persuasive in establishing error in the propriety of the present rejection.

Conclusion

No claim is allowed.
